

## Yorkshire Medical Sociology Group Workshop:

### Lesbian, Gay, Bisexual, Queer and Intersex Health

Friday 28 June 2019,  
13.00-18.00

**Oastler Building Level 7 room 31-c, University of Huddersfield.**

Interest in lesbian, gay, bisexual, and transgender health issues has increased in recent years, given the legislative underpinnings for LGBT equalities in the UK. However, many challenges remain to ensuring equal access to healthcare for this diverse range of people at a national level and internationally. The increased prominence of a wider range of identities, such as non-binary and pansexual, raises interesting questions for the sociology of health. Intersex people, whose issues are different to those of LGBT people, face major barriers to health-related human rights, which require attention.

#### **Who should attend?**

The meeting is open to postgraduate students, academics, researchers, members of the LGBT and I communities, activists, and practitioners working in the field.

#### **Cost of attendance**

In order to cover our costs and to help with future meetings the following charges will apply:

- BSA members £15
- Non BSA members £20
- Concessionary £10.00
- Non BSA member students £10.00
- Unfunded LGBTI community and activists Free
- University of Huddersfield staff and Students Free
