

# Sociological Research Online Editorship 2020-2022

## Invitation to Edit

The BSA and SAGE is opening the call for Editors interested in editing the journal *Sociological Research Online* (SRO), for a 3-year period from January 2020 to December 2022.

SRO was launched as the first online-only peer-reviewed sociology journal in 1996. As one of the first journals to make electronic publishing a reality, it innovated new ways of publishing and communicating.

SRO is poised to again take on major change and development as we face the opportunities of open access publishing, rapid technological development, and significant social change and uncertainty. The BSA and SAGE are looking for editors who are interested in exploring and tackling change and innovation with SRO.

The journal publishes high-quality applied sociology, focusing on theoretical, empirical and methodological discussions that engage with current political, cultural and intellectual topics and debates. Articles are concerned with the application of sociological forms of analysis to a wide range of public issues and private concerns, thereby demonstrating the wide social relevance of sociological research and theory to understanding contemporary social issues.

The editors will shape the future intellectual profile of the journal and will drive its development. In so doing, they will make an important contribution to the work of the BSA in promoting sociological research, to SAGE's profile in sociology journal publishing, and to the wider discipline of sociology.

### **Deadline for Expressions of Interest: 2 August 2019**

To express interest, please get in touch with the journal – [sro.journal@britsoc.org.uk](mailto:sro.journal@britsoc.org.uk)

For further information, please visit our website:
