

## Are you interested in being a BSA Science & Technologies Co-convenor?

*The BSA Science and Technology Studies Study Group is looking for a third co-convenor. The group is currently led by Dr Tara Mahfoud (University of Essex) and Dr Julia Swallow (University of Edinburgh).*

The BSA Science and Technology Studies Study Group is looking for a third co-convenor. The group is currently led by Dr Tara Mahfoud (University of Essex) and Dr Julia Swallow (University of Edinburgh).

The co-convenor role entails:

- Sharing relevant information and events with members using the jiscmail list
- Organising occasional events/workshops
- Managing the group's budget
- Liaising with the BSA
- Representing the study group at BSA Study Group meetings
- Organising streams and plenaries for the BSA annual conference, as well as conference chairing

In the coming academic year, we are keen to establish a regular programme of events including a seminar series, professionalisation talks aimed at early career academics, and a book forum. Tasks will include inviting speakers and liaising with the BSA Events Team to manage event budgets, and organising promotional materials and practical arrangements.

Working as a convenor for the group does not require a heavy time commitment, and the position is open to senior, mid- or early- career academics and PhD students in their final stages of study. To apply, please email Tara Mahfoud ([tara.mahfoud@essex.ac.uk](mailto:tara.mahfoud@essex.ac.uk)) and Emily Ross ([e.ross@sheffield.ac.uk](mailto:e.ross@sheffield.ac.uk)) an expression of interest in the post.

Please briefly outline what you could bring to and how you could benefit from the role. The deadline is **Sunday 31 July 2022**.
